

Getting ready for Ultrafast Full Fibre Broadband in Lismore

Work is under way to upgrade Lismore broadband through the Scottish Government's Reaching 100% programme. Openreach is reminding local people to register their interest as soon as possible, so that the construction of the Full Fibre network is planned around local demand.

Residents can register by scanning the QR code or using Openreach's [Availability Checker](#). Select the **Ultrafast Full Fibre Broadband - Keep me updated** option, enter your contact details and we'll keep you updated about progress on when #R100 Full Fibre is coming your area.

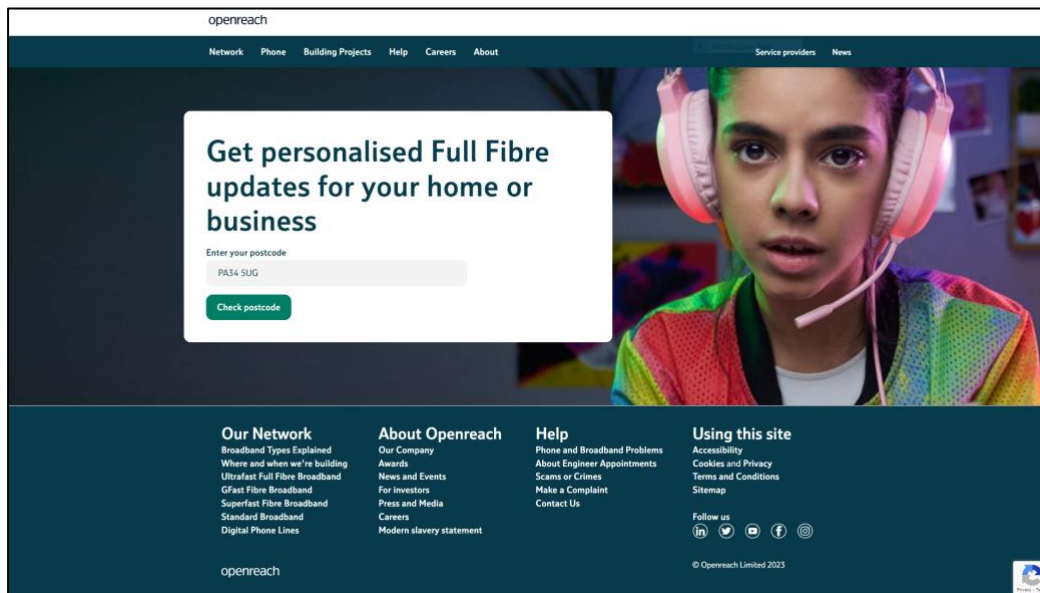

We'll also use the information to understand how many people on Lismore are interested in taking up Full Fibre broadband and to help us plan accordingly – it's important to note that providing us with your details doesn't commit you to an order or taking a service.

The info will help engineers to deliver Full Fibre connections quickly to people who are ready to upgrade, and we'll also let you know when #R100 Full Fibre is coming to your area.

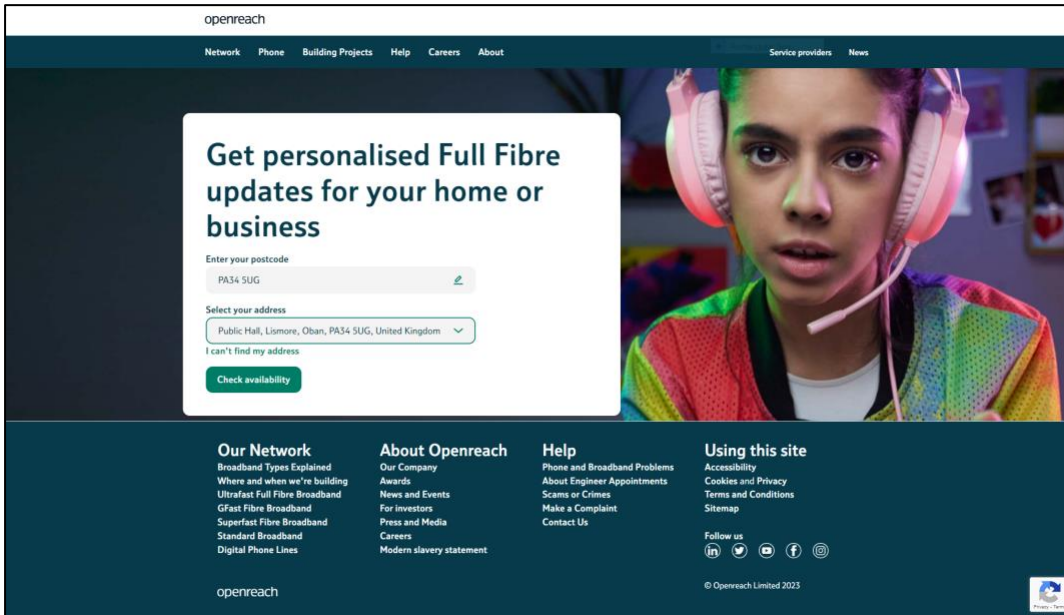

As well as being faster, with speeds up to 1Gbps, Full Fibre broadband provides more reliable, resilient and future-proof connectivity, with more predictable, consistent speeds and enough capacity to use multiple devices at once.

Four simple steps to get registered:

1) Enter your postcode

A screenshot of the Openreach website's registration page. The page has a dark teal header with the 'openreach' logo and navigation links: 'Network', 'Phone', 'Building Projects', 'Help', 'Careers', 'About', 'Service providers', and 'News'. The main content area features a white box with the heading 'Get personalised Full Fibre updates for your home or business'. Below this is a form with the label 'Enter your postcode', a text input field containing 'PA34 5UG', and a green 'Check postcode' button. To the right of the form is a photograph of a young woman wearing a colorful jacket and a headset with a microphone. The footer is dark teal and contains four columns of links: 'Our Network' (Broadband Types Explained, Where and when we're building, Ultrafast Full Fibre Broadband, GFast Fibre Broadband, Superfast Fibre Broadband, Standard Broadband, Digital Phone Lines), 'About Openreach' (Our Company, Awards, News and Events, For investors, Press and Media, Careers, Modern slavery statement), 'Help' (Phone and Broadband Problems, About Engineer Appointments, Scams or Crimes, Make a Complaint, Contact Us), and 'Using this site' (Accessibility, Cookies and Privacy, Terms and Conditions, Sitemap). It also includes social media icons for LinkedIn, Twitter, YouTube, Facebook, and Instagram, and the text 'Follow us'. At the bottom left is the 'openreach' logo, at the bottom center is '© Openreach Limited 2023', and at the bottom right is a recycling symbol.

2) Select your address and click 'Check availability'

3) Select 'Keep me updated' on the Ultrafast Full Fibre Broadband option

Ultrafast Full Fibre isn't in your area yet

At the moment, our Ultrafast Full Fibre build plans don't include your area but things can change.

Provide us with your information below and we'll let you know immediately if our build plans change to include your area.

Then, we'll keep you updated on the build's progress and get in touch as soon as it's ready to order. We'll even show you which service providers you can order it from.

First name*

Last name*

Email address*

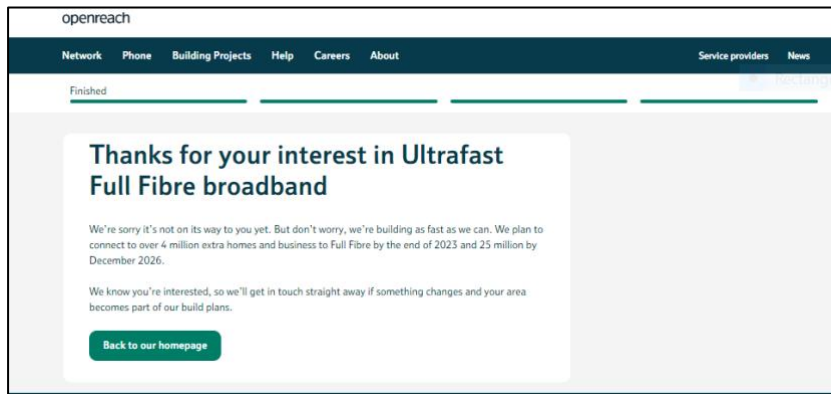

Contact me by:* Email Phone SMS Post

Are you happy for Openreach to store and use your personal information for the purpose of keeping you updated about your chosen broadband product?*

Yes No

[Keep me updated](#)

At the end of the process, you'll see this:

What happens when Full Fibre is available?

You'll need to order a service from your chosen provider – it's not an automatic upgrade.

- ✓ Pick an internet service provider from the list in the Availability Checker
- ✓ Contact them to order and choose the right package for you
- ✓ Wait for your chosen provider to give you an activation date and engineer appointment.
